Raise the Bar for Quality and Safety with Unit Dose, Bar-Coded Medications

HYDROCODONE RECLASSIFICATION

With the reclassification of Hydrocodone, SKY must make a few changes that will affect availability of SKY Hydrocodone + APAP in the near future.

Since production and storage of CII products requires an on-site controlled substance vault, we must temporarily continue production of this item through our Memphis repackaging facility, RxPak. The new NDC number is: **63739 0704 10**.

As a result of RxPak distribution limitations, wholesalers currently able to carry the product are McKesson (all distribution centers) and Cardinal (all distribution centers). SKY Packaging's controlled substance vault has an expected installation date of mid - December, 2014. By January 1st, 2015, we expect to have Hydrocodone + APAP available to all wholesalers once again. Please stay connected via our homepage and Twitter for more information.

SKY Packaging can no longer accept any returns of Hydrocodone Combination Products. All Hydrocodone Combination Products MUST be sent to a third party disposal facility licensed to handle CII products. Products shipped after October 6, 2014 are subject to the Controlled Substance Act's regulatory controls and require the processing of DEA form 222 with all shipments.

SKY HEPARIN WILL BE AVAILABLE NOVEMBER 2014!

SKY Heparin will be available in eight popular presentations including with Paraben, Preservative Free and with Benzyl Alcohol. Additional product information can be found on our website at www.skypkg.com. Just click on Our Products > Injectibles

VALUE

SKY provides a cost-effective packaging solution to assist our customers in achieving their bar code goals.

CONVENIENCE

Choose SKY to compliment your bar code strategy with our robust generic product portfolio. Products are available in 100—dose and 750—dose package sizes.

SAFETY

SKY products have FDA compliant bar codes that help maximize quality, efficiency, and patient safety, while expanding the selection of bar-coded medications for health system pharmacies.

HAVING TROUBLE LOCATING A PRODUCT YOU NEED?

Please contact your local wholesaler representative to ensure your distributor has product in stock.

QUESTIONS & CUSTOMER SERVICE
